

APPENDIX 3-E
ILLINOIS STATE UNIVERSITY
RADIATION SAFETY COMMITTEE
CHAIRMAN 438-8325

DOCUMENTATION OF TRAINING

This document is to be signed by all personnel that have received training concerning the use, storage, and disposal of radioactive materials.

I, _____, acknowledge that I have received and understand the training given to me by the Radiation Safety Officer and /or my supervisor on radiation. The training consisted of the following items: (Please check each item that was discussed or conducted during the training.)

- ___ Definition of radiation
- ___ Health effects of radiation
- ___ General safe procedures for handling, storing and disposing of radioactive materials.
- ___ General safe procedures for working around radiation producing materials or machines.
- ___ Specifics about the type of isotopes that will be used.
- ___ Specifics about the handling and safety procedures for the experiments to be conducted.
- ___ The rules and regulations of the IDNS and the University regarding the use of radioactive materials and/or radiation producing machines.
- ___ The location of the regulations and the phone numbers of personnel to call in case of an emergency.
- ___ A question and answer period to discuss the training material.
- ___ An exam covering the material discussed in the training.
